

# FAQs About Summer STREAM Mini- Camps

The most frequently asked questions about STREAM Summer Camps answered here. If you have further questions please reach out to [mcqueenk@battelle.org](mailto:mcqueenk@battelle.org)

## Q: Is this a free resource?

Our partnership with Defined Learning already offers access to middle grades (5-8) at no cost. In light of the summer school requirement, Defined Learning decided to offer a limited number of performance task to grades K-8 for the summer at no cost.

## Q: How can I access the performance tasks?

Find your district by clicking this link [DISTRICT ACCESS](#) . If there is an option in the "access" column, log in as normal. If you are unable to find access within your district, click create an account. Follow prompts to create your own username & password combo.

## Q: Do I have access to professional development?

Yes, you have access to learning modules by Jay McTighe along with a full PD Center on Defined Learning. In addition to these built in opportunities, there are recorded webinars from TSIN and Defined Learning.

## Q: Am I required to complete all the products listed in each task?

Each performance task has a wide variety of products that you can pick and choose from. You can customize the products by deleting products you do not wish to use. For summer school purposes, you may have a goal of implementing 2-3 products per task.

## Q: Can I continue to use Defined Learning after the summer months?

Please reach out to Aimee Tait with Defined Learning to learn more about using the platform after summer with your district's LMS. She can be reached at [aimee\\_tait@definedlearning.com](mailto:aimee_tait@definedlearning.com)

## Q: How do my students access Defined Learning?

For the purpose of the STREAM Mini-Camps, Defined Learning is NOT rostering students into the system. The BEST way to share access will be to share the link of the assigned performance tasks with your students or download & print the desired performance task.
